

PRESS RELEASE

Trinium Announces Speakers for 2011 User Conference

PALOS VERDES, California – April 22, 2011 - Trinium Technologies, a leading provider of enterprise transportation software for the trucking industry, has announced the speakers and participants for its annual user conference, to be held May 10-11 in Long Beach, California.

The conference's keynote speakers will be Bill Mongelluzzo from the Journal of Commerce who will be speaking on the outlook for the intermodal industry; and John Mizerek from Flexi-Van Leasing, who will speak on the impending changes to chassis management in the intermodal industry in the U.S.

Also participating in a panel discussion will be executives from mobile communications providers PeoplNet, Teletrac, and Telenav; as Trinium presents the various options to achieve industry best practice through the use of mobile technologies.

The user conference will be attended by executives and super-users from dozens of intermodal and multi-modal trucking companies running Trinium from all over the U.S. and Canada. At the conference, Trinium will also hold its annual user advisory group meeting. "Collaborating with our customers in settings like the user conference, enable us to continue to release relevant functionality to the markets we serve. This year we will be releasing enhancements to address the chassis changes in the industry that is affecting all intermodal trucking companies," said Dennis Lane, vice president of sales and marketing at Trinium Technologies.

About Trinium Technologies - Trinium Technologies is a leading provider of enterprise systems for intermodal trucking companies. The company is focused on industry best practices to help its customers reduce costs, grow revenue, and improve customer satisfaction. www.triniumtech.com.
