November 2005

G&P Trucking to Deploy Trinium's Transportation Management System

G&P Trucking, a leading regional truckload and intermodal trucking company based in Columbia, SC has purchased Trinium-TMS to manage its intermodal trucking business unit. G&P's intermodal division provides rail and harbor trucking services throughout the U.S. Southeast, Midwest, Southwest, and Mid-Atlantic regions. **Trinium Technologies** specializes in driving financial improvements for intermodal trucking companies.

G&P has started the implementation of Trinium-TMS, and plans to go "live" in early 2006. The company purchased several Trinium sub-modules including Trinium's document imaging, event management, EDI, and web tracking modules. G&P also plans to implement the Trinium MobileComm Module, to improve dispatcher-to-driver communications in phase II of the project. Trinium will enable G&P to improve empty container tracking, reduce per diem/detention costs, and completely automate the driver settlement process for multi-legged intermodal trucking orders.

"In order to take advantage of the growth of our intermodal division, we needed a system that focused on harbor and rail trucking. Trinium provides the best intermodal functionality that we've seen in the market" said Steve McCourt, Senior Vice President of Sales & Operations, at G&P Trucking.

"We are anxious to work with G&P in implementing our TMS for their intermodal business. Partnering with quality operators, like G&P, has enabled us to grow the functionality of our products and to secure the position as the leading software vendor in the intermodal trucking industry" said Dennis Lane, Vice President of Sales & Marketing, Trinium Technologies.

About G&P Trucking Company

G&P Trucking Company was founded in 1936 and it was purchased by W.T. Cassels, Jr. and family in September 1986. G&P's operating base extends through the states of SC, NC, GA, FL, AL, VA, TN, KY, OH, IN, IL, MO, AR, LA, & TX. G&P hauls import and export cargoes from key port and rail hub cities such as Charleston , Savannah , Norfolk , Jacksonville , Atlanta , Charlotte , Memphis , Nashville , and Houston starting in 2006. The firm maintains containerize freight-interchange agreements with most ocean carriers, and is also a bonded carrier, clearing U.S. customs in all authorized locations.
